Mr. Miller said that while he believed a valid objection could be urged against Trainor's election on the ground stated, he thought the voters of the district had supported the Democratic candidate in good faith and had given him a large majority.

so that he had decided to withdraw his bijection entirely. He received 2.454 votes and Trainor 3.36i.

The cases set down for consideration to-day were those of Charles La Maida, Republican, against Thomas J. O'Donnell, the Assemblyman-elect in the Eighth District, who received 6.186 votes against 3.365 f La Maida; and the context by Albert W. Baillie, Republican, against Samu, J. Foley, Democrat, the latter receiving 5.238 votes in the Fifth District against 1.852 for Baillie.

In the first case the ground of the protest is that O'Donnell was a special deputy sheriff at the time of the last election. He was therefore ineligible, it is claimed, under the provision of the Constitution which says that no person can be elected to the Legislature who, within 100 days previous to the election, had been "an officer under any city government."

The Tammany Assemblyman was reported.

had been "an officer under any city gernment."

The Tammany Assemblyman was represented by Civil Justice Wauhope Lynn, who, in opening the case for his clients, objected to the petition of La Maida on the ground that it contained no statement that he was a citizen of the United States.

Lucas L. Van Allen, who appeared for La Maida, said that there was no need for his client to prove his citizenship at this time, but Mr. Lynn maintained that there was.

this time, but Mr. Lynn maintained that here was.

La Maida was then put on the stand and testified that he had lived in New York for ten years, and had been naturalized two years ago. He could not remember the name of the Judge who had issued the naturalization papers.

He did not vote at the last election, he said, because he had forgotten to register.

ter.

In his argument Mr. Lynn said O'Donnell was not an officer of the city government under the meaning of the Conritution, because the Sheriff's office was
not a municipal office, but a county office.

He asked permission to submit a brief, and Mr. Van Allen consenting, it was decided that the brief should be submitted before next Saturday.

In the case of Hallile against Foley, which came up next, Mr. Van Allen represented the contestant, and J. Wright Holcomb the Assemblyman. The charge in this case is that Foley was appointed a Commissioner of Street Opening by Justice Beach, of the Supreme Court and was acting as such officer within the limit of one hundred days previous to the last election.

Before the case came up, however, the

and was acting as such officer within the limit of one hundred days previous to the last election.

Before the case came up, however, the contest of Henry B. Page against Assemblyman Michael F. Tobin, of the Twenty-second District, was called. Tobin is said to have been an employee of the Excise Department or the Department of Public Works within the 100-day limit, and that he has nor ight to his seat, although he received 4025 votes against 4,762 cast for Page.

Mr. Page appeared in his own behalf, and said he was not prepared to go on in consequence of the absence of his counsel, and wanted the case postponed till Thursday. This request was granted by the Committee.

After Mr. Miller had appeared and grung his little surprise, the hearing in the Ballide-Foley case went on, and a large mass of documentary evidence was presented by Lawyer Van Allen to show that Mr. Foley had been appointed Commissioenr of Assessment for the opening of streets in the Annexed District in June, 1892, and had acted inder that appointment as late as last yovember after the election.

Several objections to the claim of the ontestant were made by Lawyer Holomb. One was that under the law a ommissioner of Street-Opening must nort within four months after his application. Which four months after his application, while over a year had elapsed this case, before he had acted. He also claimed that as a Commissioner of Assessment, Mr. Foley could not be regarded as an officer of the city avernment in any sense of the word, and cited a decision of Justice Lawence to this effect in a case which came a several year, ago.

He, therefore, moved that the comming against Mr. Foley should be disassed.

Messrs. Trull and O'Gorman had not questions to ask for the plaintiff.

Next Col. James introduced a Government report to show that the tide at 8 andy Hook and Coney Island was coming in at the hour-about 4 P. M. when John C. Austin is supposed to have drowned, and was coming in from two to three hours after that. This was to show that Austin's body could not have been carried up on the beach.

Mrs. Hilpert a short time later received a telegram. It stated that her sister, Lena, was sick, and requested her to come at once to 378 Third avenue.

Mrs. Hilpert left her home, leaving Fitchenberg and her father together. Before she left she noticed that Fitchenberg had got a pint of beer and a small bottle of port wine.

Mrs. Hilpert said that when she called at the above address to see her sick sister, she found that she did not live there. On returning home Mrs. Hilpert found her father asleep in bed, and her brother-in-law, Fitchenberg, was gone.

A short time later Mrs. Hilpert received a visitor from the Bowery Bank, He asked her if Louis Defio lived there and whether he was desirious of withdrawing 13% from the bank. The bank messenger stated that a woman had called at the bank and wanted to draw that amount.

Mrs. Hilpert said that she did not know of her father anding to the bank for any money. She tried to arouse her father, who appeared, she stated, to be suffering from a drug.

The messenger from the bank then told Mrs. Hilpert to see whether her tather had been robbed. Mrs. Hilpert made an investigation and discovered that her father's money chest had been broken open. To convince the newspaper men that it was really here Mr. Dunn pointed to his red ears and slapped his hands together over the steam radiator in his office. After busiling about for a few minitudes he got his weather map and told the reporters the story of the "cold wave," as follows:

Mr. Dunn's reports show that there were light flurries of snow in the lake regions last night, and a little rain in the Atlantic States. It is fair elsewhere over the country and decidedly colder in all States except those that border on the Gulf of Mexico.

Mr. Dunn thinks that by te-morrow night the ice on the small lakes and Van Cortlandt Lake will be frozen thick enough for skating. It is possible, he says, that the Central Park lakes may also furnish skaters this week with the long-looked-for chance to disport themselves on the ice.

"The cold weather has evidently come to stay for some time," he said in conclusion.
